Dear Hiring Manager,

I am writing to express my interest in the co-op placement opportunity you have posted on your company site. As a Software Engineering student specializing in Artificial Intelligence at Centennial College, I am excited to contribute to your team and apply my skills in a practical, real-world environment.

Through my academic coursework and hands-on projects, I have developed a solid foundation in programming languages such as C#, C, and Python, as well as web development technologies including HTML, CSS, JavaScript, React, and Node.js. My experience with database management systems like SQL and Oracle, along with my understanding of the Software Development Life Cycle (SDLC), positions me well to add value to your software engineering projects.

In my current role at Rogers Communications, I have mastered my problem-solving abilities and customer service skills, while my academic projects have provided hands-on experience in SDLC and collaborative teamwork. Transitioning to MyButopia Salon & Spa as a Project Manager, I've had the opportunity to lead the development and implementation of a new scheduling application, refining my project management skills and enhancing my ability to collaborate effectively with cross-functional teams. Moreover, my experience in client feedback integration and digital marketing strategies has equipped me with valuable insights into data-driven decision-making skills that are directly transferable to the dynamic environment of software engineering. Paired with my background in operational optimization and budget management, I am eager to contribute to your team and apply my knowledge to other projects.

Thank you for considering my application. I am excited about the possibility of discussing how I can contribute to your team. I am available for an interview at your earliest convenience and can be reached at 647-513-3392 or via email at hutchinsjkiona@gmail.com.

Best regards,

Kiona Hutchins
